

THE JOURNEY CONTINUES *Finding Joy Amidst Life's Struggles*

Greetings,

I am writing to introduce myself and a book I recently published.

In May of 2016, I was diagnosed with stage IV colon cancer and told, “to get my affairs in order.”

“The Journey Continues” is my story of learning to fight and then live with stage IV colon cancer. I share openly and honestly how the words spoken by a stranger totally changed life as I knew it. My wife joins me in writing, she shares with great vulnerability of how my cancer challenged her in every area of life.

I write in the book, “It is not that I believe ‘my stuff’ to be any better or even different than the stuff of many others. The truth is we all have difficult seasons to travel as we journey through life.”

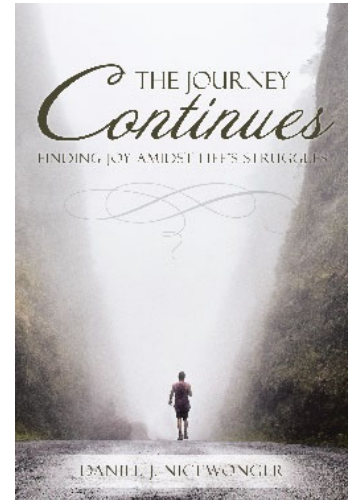

My hope is that as others read of my journey, they may find strength for their journey or a deeper understanding of what it means for those who battle a life-threatening disease.

I am available for interviews and any questions you may have.
